JCW:

HAPPY NEW YEAR!

Please send back the letters from the Consulate-General-New York- I need the name of the man who wrote in Gopala Menon's absence - promised to send a list of people to whom Ambassador Bunker and I wrote, and I should do this today, as the Post Office is closed tomorrow.

WHAT about the Craig-Upton date for Saturday? Have you let them know - No? Yes? or When?

If you haven't read the book described in the attached - I've been trying to get it for you but can't find one here - it might be a very good one to read going over on the plane - full of satire about American foibles, which you are about to run into head-on. Maybe you can get it in Bombay.
